

ABSTRACT

This study aims to determine how the verbal communication symbol of pregnant adolescents outside of marriage and to know how the symbol of non-verbal communication of pregnant adolescents outside of marriage. This research uses qualitative research methods with a qualitative descriptive study research approach. The research subjects were adolescents who were pregnant outside of wedlock in Bandung Regency, Bojongsoang District. The data collection process was obtained through in-depth interviews and observations of informants, while supporting data was obtained through previous research documentation studies, other literary studies, and interviews with related parties. The results of this study indicate that the communication behavior of pregnant adolescents outside of marriage carries out verbal communication in the form of conveying their hearts and thoughts about what they are feeling and for nonverbal communication itself there are some changes physically and emotionally, adolescents also tend to be depressed and hopeless and become insecure. . Therefore, preventive efforts are made in the form of prevention, vigilance, and prudence in carrying out daily life.

Key words: Communication Behavior, Adolescents, Pregnant Outside Marriage

ABSTRAK

Penelitian ini bertujuan untuk mengetahui bagaimana simbol komunikasi verbal remaja hamil di luar nikah dan mengetahui bagaimana simbol komunikasi nonverbal remaja hamil di luar nikah. Penelitian ini menggunakan metode penelitian kualitatif dengan pendekatan penelitian studi deskriptif kualitatif. Subyek penelitian adalah remaja yang mengalami hamil di luar nikah di Kabupaten Bandung Kecamatan Bojongsoang. Proses pengumpulan data diperoleh melalui wawancara mendalam, dan pengamatan terhadap informan, sedangkan data penunjang diperoleh melalui studi dokumentasi penelitian sebelumnya, studi literatur lainnya, dan wawancara dengan pihak terkait. Hasil penelitian ini menunjukkan bahwa perilaku komunikasi remaja hamil di luar nikah melakukan komunikasi verbal berupa tersampainya isi hati serta pemikiran mengenai apa yang dirasakan dan untuk komunikasi nonverbal sendiri terlihat beberapa perubahan secara fisik dan emosi, remaja juga cenderung depresi dan putus asa serta menjadi tidak percaya diri. Maka dari itu dilakukannya upaya preventif berupa pencegahan, kewaspadaan, dan kehati-hatian dalam menjalankan kehidupan sehari-hari.
